

INTERNATIONAL JOURNAL OF CENTRAL BANKING

## Ten Years after the Global Financial Crisis: What Have We Learned about Ensuring Financial Stability?

*Annual International Journal of Central Banking Research Conference*  
Hosted by De Nederlandsche Bank (DNB) in Amsterdam, The Netherlands  
June 25-26, 2018

### CALL FOR PAPERS

The *International Journal of Central Banking (IJCB)* is organizing its 2018 annual conference, “**Ten Years after the Global Financial Crisis: What Have We Learned about Ensuring Financial Stability?**” The conference will be hosted by De Nederlandsche Bank (DNB) in Amsterdam, The Netherlands, on June 25-26, 2018, and is being organized by Tobias Adrian, Harrison Hong, Luc Laeven, and Loretta Mester.

Six to eight papers will be selected for presentation from among those submitted in response to this announcement. In contrast to previous years, there is no obligation for a paper submitted to the conference to be submitted to the *IJCB*. But, if at the time of submission to the conference, the authors indicate they would like their paper to be considered for publication in the *IJCB*, the submission will receive an expedited review process at the journal. (Note, as is standard practice, any paper submitted to the journal cannot be under review at another journal.)

This conference aims to bring together leading economists from central banks, academia, and other research institutions to consider what we have learned in the ten years since the onset of the global financial crisis about ensuring financial stability, what open questions remain, and what policy lessons can be drawn.

We seek both empirical and theoretical policy-relevant papers. Areas of interest include but are not limited to:

- Evidence on whether changes to financial regulation and supervision have yielded a more resilient global financial system
- Frameworks for assessing and monitoring financial resilience and systemic risk
- The role of market discipline vs. regulation
- Interactions between liquidity and capital regulation
- Regulatory arbitrage across market segments and across countries
- Changes in underlying financial market structure as a result of policy actions taken to address the financial crisis and the Great Recession
- Corporate governance of financial institutions
- Financial resilience measurement and assessment
- Interactions between monetary policy, macroprudential policy, and microprudential policy
- Effectiveness of macroprudential policy and tools
- Evidence on “search for yield” behavior
- The governance of monetary policy and financial stability policy
- Trade-offs between financial resiliency and economic growth

#### **Submission guidelines:**

- Complete manuscripts (not abstracts) in PDF format should be submitted using our online submission website at: [https://editorialexpress.com/cgi-bin/conference/conference.cgi?action=login&db\\_name=IJCB2018](https://editorialexpress.com/cgi-bin/conference/conference.cgi?action=login&db_name=IJCB2018)
- Submitted papers must be **received by December 22, 2017.**
- Authors must indicate (in the comment field when submitting online) whether they would like their paper to be considered for submission to the *IJCB* in addition to the conference. Authors submitting to the conference and to the *IJCB* must confirm that their submitted paper is **not** under review at another journal.

The author(s) of each accepted paper will be notified by February 28, 2018. Presenters and discussants without access to their own funding will have reasonable travel and hotel expenses reimbursed.
