

New Frameworks for Monetary Policy Analysis in  
an Era of Crises

Introduction to a Special Issue of the  
International Journal of Central Banking

This volume of the *International Journal of Central Banking* includes the proceedings from the conference titled “New Frameworks for Monetary Policy Analysis in an Era of Crises,” hosted by the Central Bank of Chile on September 27–28, 2012. In addition to the papers and discussions, this issue contains the prepared remarks given at the conference by Rodrigo Vergara (Governor, Central Bank of Chile). The conference was organized by Carl Walsh, Pierpaolo Benigno, and John Williams.
